Say Hello

www.5thdt.com

@ the tAkē off

5thDT was started in the peak summer of 2015.
The thought sparked the minds of our President and CEO during a casual phone call.

And 5thDT the name that raised eyebrows was all set to take off.

We officially went live in June 2015 and bagged our first order from Humani TV in August and the second big one from LIC in September. It was a slow start with 2 employees but gradually we grew.

Ahem, Ahem.. didn't we say, we love phones?

#we are offbeat and social @knot the nerds

our story

Well, you can skip this slide if you want

The name raised many eyebrows. People were curious to know why this name was chosen.

Whenever this question was put to the founder President Rajiv Sharma he would explain with utmost patience. Slowly Mr. President got used to this question.

Yes, we are 5thDT. We love working on web, spaces, gravity, numbers, screens and phones. simply explained by co-founder CEO Priya Niyogi. As easy as that sounds.

We had our ouch moments many a times because lot many used to have their own version of our company name. 5D, 5thD, 5DT, 5Dimension and what not. Ladies and Gentlemen, we are 5thDT.

5th Dimension Technologies. @Roger that
#brewed from real life experiences.

#Something about us

What does 5thDT do? Isn't this as good as the most famous interview question "Tell us something about yourself" that everybody for a moment stumble upon?

Alrighty. Here we go. 5thDT designs and develops concepts and solutions. We love to learn with every idea we build.

Right from ideation to building the concept to delivering a solution, 5thDT is passionate about creating niche product ideas.

We love to work on Web, Mobile, UI, concept building and animation.

Concepts, UI & UX

Not great minds at work, but the best work by creative minds. We engage with brands and people.

5thDT strongly believes that a good **concept**, **UX** and **UI** is welcomed and accepted.

You need a **UI** for your applications, you want to rework on the **UX** or need digital transformation of your printed material, we are all here to work with you. We work on strict deadlines that make us “nocturnal”.

#we are workaholics @usually not casual

Web & Mobile Applications

While we try to stick to what we are good at, we also learn and we upgrade too. Let it be **Hybrid** or **Native** apps, **iOS** or **Android**, our team can build in **React** and **Flutter**.

Curious? You can always ask for a call to know more. We promise your time will not be wasted.

#crossing the platforms @we love phones

Software Solutions

Yes, we are the solution providers.

5th DT focuses on **designing** and **developing** products and solutions for startups, large business and social enterprises on multiple **technology platforms**.

We also offer niche, high end but cost effective skills in developing world class products.

#solution providers @we are technophiles

Managed Services

The greed in us, the greed for work.

5th DT – Yes we believe that our team has the right **skills** to fit in the emerging market trends.

We offer resources skilled with latest technologies like **PHP**, **Java**, **python .js**, and **angular js**, **react**, **Mongo**, **SAP**, **HTML** and many more.

#sourcing in @we are work hungry

Cyber Security

Tackle evolving threats to your business. The data to everything platform.

Data is complex, but your approach to it doesn't have to be. Become more resilient in the face of new threats and volatile market forces. 5th DT in 2021 has partnered with **Splunk** to enter the **Data Age**.

Transform your business in the cloud with **Splunk**.

#be rest assured @we protect your data

2D Animation

Our love for comic, characters, cartoons and fiction made us start the animation division.

5th DT has started the animation division in 2016. We initially took small jobs to learn the process and now we have a strong team in **Animate CC** and **Harmony**. You want to get **characters** designed or bring your own characters to life, our team is skilled to deliver from **pre production** to **post production**.

#from script to screen @we move and jump

E-Learning

Well, learning on the go? Enhance your existing in house training by way of opting for **E- Learning** method.

With a well implemented **Learning Management System (LMS)**, that makes it easy to track and prove progress for your staff and learners. This can be essential where proof of mandatory **training** is required.

#crossing the platforms @we love phones

Education

Learning never ends. Study anywhere, anytime.

5thDT strongly believes that good **education** is the foundation of a bright future. After extensive research, we have developed a well articulated **solution** for learners of all ages.

For we follow the belief, that education is everybody's right.

#education for all @we empower the learning

@Say Hello

We do not favor canned / automated responses. As we want people to know that they are talking to humans and not machines.

#We communicate
